

Web Technology 2015

Final remarks

Staas de Jong

Repeating some important facts...

- Hand-in deadline for the Web Technology Reports: **June 12.**
 - ↑ *Proportionality*: Each of your paper's 7 sections will add *equally* to your grade.
- Exam: **June 17.**
 - ↑ *Proportionality*: Each of the lectures & their study materials will be represented *equally* among the questions posed to you.
- Question Hour: **Today.**

Some of the major questions we have considered...

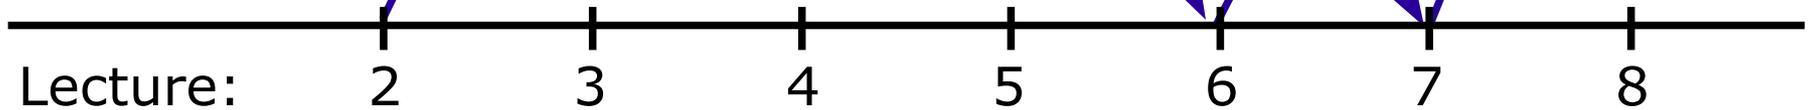

- What is Media Technology about ?
- What is the role of internet technology in this ?
- What aspect of internet technology fascinates you ?
- What is the Internet? How does it work?
- How do you get from copper wires to a worldwide network?
- How can you store & make accessible all of human knowledge?
- What is the WWW?
- What is the client/server model? How can you program with it?
- What is the relationship between privacy and power?
- What is encryption?
- How can you ever anonymously have private communication on a completely open channel?
- Why and how is all of the above relevant to Your Projects?

Where are we now?
